Appelhans and Kang

KPop Demon Hunters is a 2025 American animated musical urban fantasy film directed and co-written by Maggie Kang and Chris Appelhans *(both pictured)*. Produced by Sony Pictures Animation for Netflix, the film features the voices of Arden Cho, Ahn Hyo-seop, May Hong, and Ji-young Yoo. The film follows Huntrix, a K-pop girl group who lead double lives as demon hunters; they face off against a rival boy band, the Saja Boys, whose members are secretly demons. The film received universal praise, winning two Academy Awards among many other accolades. It became the most-watched original title in Netflix history, with 325 million views. The film's sing-along limited theatrical release was the widest by number of theaters for a Netflix film, and the first to top the box office in the United States. The film's soundtrack became the first such to have four songs in the *Billboard* Hot 100 top ten, was certified Double Platinum, and won a Grammy Award. ***(Full article...)***

The totality crossed Metro Manila and parts of Luzon and Visayas, bringing around 6 minutes and 15 seconds of midday darkness. Pres. Magsaysay paused meetings to observe the eclipse, which amazed millions despite habagat clouds and rain.
The next Total Solar Eclipse that will pass directly over Metro Manila will still be on 2523.

SUNRISE SCHEDULE
ACROSS THE PHILIPPINES
21 JUNE 2026
Processed by ScienceKonek
The country only has one standard time, but the actual rise and set of the sun varies across the country. On June 21, the northeastern portion of the Philippines will witness the sunrise first, and vice versa for those in the southwestern section.
Note: A location's earliest sunrise does not necessarily coincide with the day of the June Solstice. For Manila, the earliest sunrise occurs around early June.

Bobet returns home
Rene Clert "Bobet" Baterbonia has now been brought home to Talacogan, Agusan del Sur, where he lies in state with his family and community. He will remain there until his burial on June 24, 2026.
Ateneo de Manila working closely with Ateneo de Davao, coordinated the arrangements for Bobet's return home and continues to accompany the Baterbonia family during this time. Discussions are ongoing on the support that may be most helpful to the family, including educational assistance for Bobet's six siblings, who are expected to relocate to Davao and enroll at Ateneo de Davao University under scholarship support.
We continue to keep Bobet and his family in our prayers.

Trump blames the green reflecting pool o... more

Donald J. Trump
@realDonaldTrump

We've cleaned, renovated, and beautified over 45 Monuments and Memorials, 28 Statues, and 22 Fountains in Washington, D.C. Things are really looking good in our Nation's Capital, and add to that the fact that when I became President, Crime was rampant, and now, Washington, D.C., is one of the Safest Cities anywhere in the United States. However, we've had some real problems with Vandalism at the beautiful Reflecting Pool, which sits between The Washington Monument and The Lincoln Memorial. Just like three days ago, they destroyed the grass outside of the Pool, they've also done everything possible to hurt the inside surface that was just installed. No different than the chemicals that were used on the National Mall, they used something similar in the Reflecting Pool to try to destroy and demean our beautiful work. Lightweight ABC Reporter, Jonathan Karl, was seen sticking his hand into the Pool, and trying to rip the rubber off of the surface. The algae is 75% gone, and the condition will soon be completely remedied, and the area that was vandalized, fortunately, is just a small area of damage, and will be fixed early next week. It's a shame that the Radical Left Lunatics, most likely Dumocats, who have spent their lives trying to ruin our Country, are free to do so. Law Enforcement is actively investigating this situation, and will hopefully have it resolved soon. Thank you for your attention to this matter!

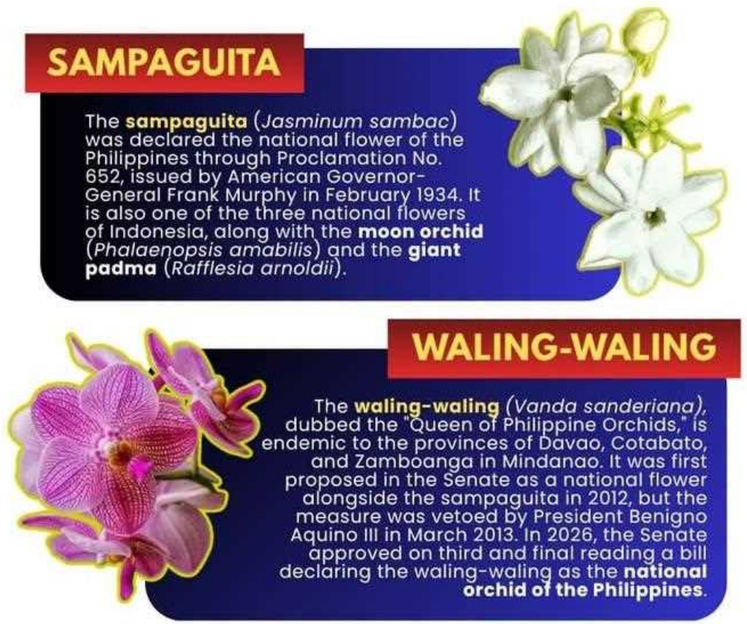
WALING-WALING BILANG NATIONAL … more



SAMPAGUITA VS WALING-WALING
SAMPAGUITA
The sampaguita (Jasminum sambac) was declared the national flower of the Philippines through Proclamation No. 652, issued by American Governor-General Frank Murphy in February 1934. It is also one of the three national flowers of Indonesia, along with the moon orchid (Phalaenopsis amabilis) and the giant padma (Rafflesia arnoldii).
WALING-WALING
The waling-waling (Vanda sanderiana), dubbed the "Queen of Philippine Orchids," is endemic to the provinces of Davao, Cotabato, and Zamboanga in Mindanao. It was first proposed in the Senate as a national flower alongside the sampaguita in 2012, but the measure was vetoed by President Benigno Aquino III in March 2013. In 2026, the Senate approved on third and final reading a bill declaring the waling-waling as the national orchid of the Philippines.

The Sulangan Church is deemed "miraculous" because devotees believe its patron saint grants impossible wishes, heals the sick, and recovers lost things. Its foundational legend and survival of natural disasters further solidify its miraculous status.#shrine #catholic #catholicfaith #catholicchurch #guiuansamar #parish

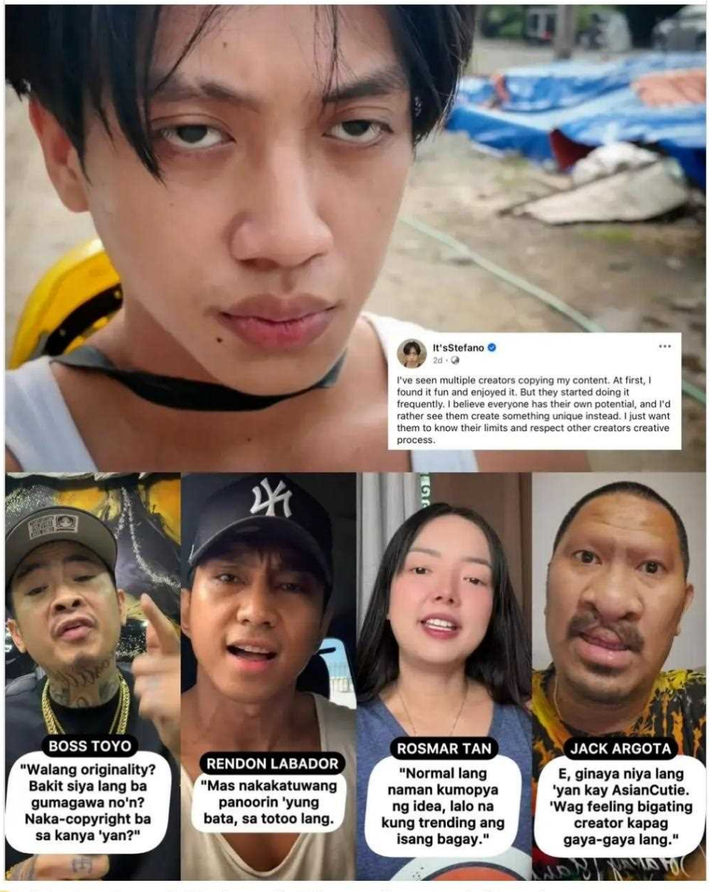
Mga online personality, nag-react sa post ng content creator na si Stefano.



It'sStefano

I've seen multiple creators copying my content. At first, I found it fun and enjoyed it. But they started doing it frequently. I believe everyone has their own potential, and I'd rather see them create something unique instead. I just want them to know their limits and respect other creators creative process.
BOSS TOYO
"Walang originality? Bakit siya lang ba gumagawa no'n? Naka-copyright ba sa kanya 'yan?"
RENDON LABADOR
"Mas nakakatuwang panoorin 'yung bata, sa totoo lang.
ROSMAR TAN
"Normal lang naman kumopya ng idea, lalo na kung trending ang isang bagay."
JACK ARGOTA
E, ginaya niya lang 'yan kay AsianCutie. 'Wag feeling bigating creator kapag gaya-gaya lang."

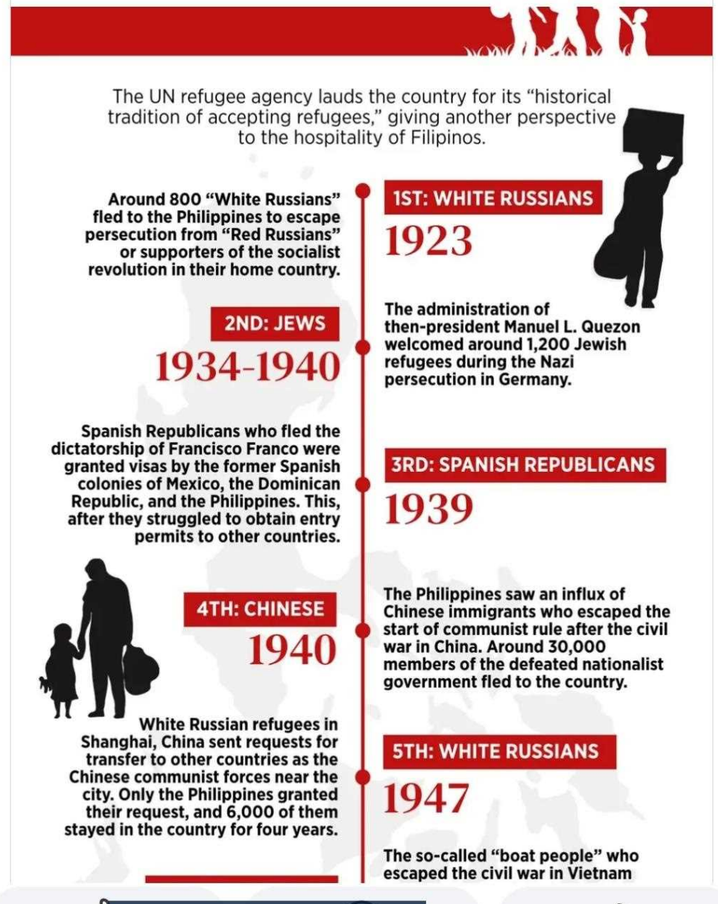
Magmula noon ay bukas ang pinto ng Pilipinas para sa mga refugee n... See more



The UN refugee agency lauds the country for its "historical tradition of accepting refugees," giving another perspective to the hospitality of Filipinos.
1ST: WHITE RUSSIANS
1923
Around 800 "White Russians" fled to the Philippines to escape persecution from "Red Russians" or supporters of the socialist revolution in their home country.
2ND: JEWS
1934-1940
The administration of then-president Manuel L. Quezon welcomed around 1,200 Jewish refugees during the Nazi persecution in Germany.
3RD: SPANISH REPUBLICANS
1939
Spanish Republicans who fled the dictatorship of Francisco Franco were granted visas by the former Spanish colonies of Mexico, the Dominican Republic, and the Philippines. This, after they struggled to obtain entry permits to other countries.
4TH: CHINESE
1940
The Philippines saw an influx of Chinese immigrants who escaped the start of communist rule after the civil war in China. Around 30,000 members of the defeated nationalist government fled to the country.
5TH: WHITE RUSSIANS
1947
White Russian refugees in Shanghai, China sent requests for transfer to other countries as the Chinese communist forces near the city. Only the Philippines granted their request, and 6,000 of them stayed in the country for four years.

[ANATOMY OF THE OFFICIAL POSTER]

Kon kaisa, ang pinakamabug-at nga ginapas-an amo ang mga pangamuyo nga daw wala sing sabat, kag ang pinakamalawig nga biyahe amo ang pagpanglakaton sa tunga sang kalisod.

Paano ka magpadayon sa pagserbisyo kon ang imo mismo lawas kag tagipusuon nagapanawag na sang kapahuwayan?

As we prepare to witness this touching story, let us look closer at the hidden meanings behind the artwork of our official poster:

Pyx
Hidden inside the letter "a" in the title, it represents Tatay Isko's holy duty. It shows that his spiritual calling is tied directly to his personal cross.

Vast Landscape
The huge, empty fields show Tatay Isko's deep loneliness and exhaustion. It reflects his feeling that heaven is silent while he suffers.

Narrow Path

Diehard Duterte Supporters (DDS) are currently losing their minds over the waling-waling (Vanda sanderiana) being approved as our National Orchid during the Senate's special session. They're claiming President Bongbong Marcos called the special session JUST for a flower to divert everyone from the flood control issue. 🌸😊

Plot twist: the approved bill lobbying for the waling-waling was authored by their very own "I cried with Pia" Queen, Senator Loren Legarda.

But wait, there's more! 😹

The bill was co-authored by their beloved Liver Lover Boy, Robin Padilla!

Just another classic case of DDS vs. DDS. Friendly fire is ON! 🎯🔥

DDS VS. DDS? WALING-WALING BILL, NAGDULOT NG BAGONG DEBATE SA LOOB NG DUTERTE CAMP 👀🌸

Naging usap-usapan online ang pagpasa ng panukalang nagdedeklara sa Waling-waling (Vanda sanderiana) bilang National Orchid of the Philippines matapos itong iugnay ng ilang netizens sa kasalukuyang tensyon sa pulitika.

Sa isang social media post, tinukoy ni Pepe Alas ang umano'y reaksyon ng ilang Duterte supporters na nagdududa kung bakit isinama sa special session ng Senado ang panukala tungkol sa Waling-waling habang mainit ang usapin ng flood control controversy.

Gayunman, itinuro rin sa post na ang principal author ng panukala ay si Sen. **Loren Legarda**, habang kabilang naman si Sen. **Robin Padilla** sa mga co-author at sumuporta sa naturang hakbang.

Nagbahagi rin si Harry Roque ng pagbati sa Senado matapos maipasa ang panukala sa ilalim ng bagong liderato ni Senate President Win Gatchalian.

Dahil dito, umani ng samu't saring reaksiyon

Dahil dito, umani ng samu't saring reaksiyon ang isyu online, kung saan may mga netizens na nagbiro na tila "DDS vs. DDS" ang naging banggaan ng opinyon kaugnay sa naturang panukala.

DID YOU KNOW?
Ninoy Aquino Was Buried in His Blood-Stained Clothes to Expose the Brutality of His Assassination

To expose the sheer brutality of his assassination, Ninoy Aquino was buried in the exact blood-stained white safari suit he wore on the tarmac, with his facial wounds left completely uncovered by makeup on his family's orders. This striking sight galvanized the entire nation, drawing an estimated 2 to 3 million people who flooded the streets of Metro Manila to walk with and honor his funeral cortege. Moving slowly through the massive crowds for over 10 hours, it remains the largest public funeral procession in Philippine history.

Company profile

H.H. SCOTT was founded in 1946 by Hermon Hosmer Scott (1909 - 1975). The abbreviation H.H. was used to avoid confusion with E. H. Scott, the "Radio Company of Chicago", manufacturer of so-called "Rolls Royce" medium wave radios. In 1947 the Scott Dynaural preamplifier and the first Hifi amplifier were introduced. H.H. Scott paved the way with Dynaural Noise Reduction, which allowed radio stations to transmit music stored on records and tapes faithfully and almost noise-free for the first time. Scott also made his mark with innovative design, as well as field-effect transistors (FETs), integrated circuits (ICs), controlled impedance loudspeakers, and digital technology. It was the following innovations by H.H Scott Inc. that helped create a hi-fi industry. 1952, H.H. Scott introduced integrated amplifiers of the first so-called "slim line", the TYPE Scott 99-A. 1955, Scott introduced the first wideband tuner, FM and medium wave (FM/AM), and the H. H. Scott 710-A record player. Until then, only medium wave tuners or receivers had been available. In 1958 Scott started with his revolutionary "Stereomaster" family, including the integrated amplifier of TYPE 299, and the word STEREOMASTER became a household word over the years. In 1959 the first stereo amplifier and the stereo preamplifier Scott 130 followed. Stereo LP recording (from 1957), four-track tape recorders, VHF stereo (FM matrix, signal generated from 2 mono channels) and later real stereo (multiple FM broadcast in the USA from 1961), increased the demand for hi-fi products enormously. In 1961 the first stereo multiplex tuner from Scott followed. In the middle of the 60s, Scott amplifiers already had connections for a centre speaker, e.g. Scott 296. These units had an output for connecting an additional mono power amplifier which, connected to a third loudspeaker, reproduced a matrix signal generated from the two stereo channels. The advantage was a much more spatial music reproduction. In 1964 came the first fully transistorized receiver from Scott. In 1966 Scott was the first hi-fi manufacturer to use field effect transistors in FM tuners. Likewise Scott produced the first receiver, which was equipped exclusively with ICs. In 1967 the Scott 348 and the Scott S-11 loudspeaker system followed. The Scott Copley S-12 speaker system came in 1968. 1969, the first receiver with quartz crystal tuning and the Scott LR-88 stereo receiver kit. By the end of the 60's, production of (tube) tube sets, tube receivers, tube tuners and tube amplifiers. The first digital frequency synthesizer tuner in the world (Scott T-33 S) also came from Scott, 1970 - 1975. The amplifiers and receivers are not only characterized by their beautiful appearance they also have excellent sound characteristics. This also applies to the smallest, the A 416 from the beginning of the 70s. Only components of the highest quality were used in the manufacture of the hi-fi units. Since the production of the Hifi devices was manageable, the [illegible] while rarities. There are e.g. also the amplifiers Scott A 426, Scott A 436, Scott A 236, the receivers Scott R 31, Scott R 34, Scott R 36, Scott R 316, Scott R 326, Scott R 77, Scott R 75, Scott R 74, the tuners Scott T 526, Scott T 33. The receivers Scott R 31, Scott R 34, Scott R 36 and the amplifier Scott A 236 were among the optically most beautiful devices.

Awful Announcing

For the first week of games at the 2026 World Cup, Fox Sports had implemented full-screen advertisements during mandatory hydration breaks. But for Game 28 between Mexico and South Korea, the network finally relented on their full-court commercial press.

Before the tournament, hydration breaks were the talk of the media world as fans wondered what the networks would do with the opportunity. Would they stay true to the continuous flow of soccer and stick with the action on the field or would they turn the beautiful game into a four quarter affair and max out on commercial revenue?

Stateside broadcasters Fox and Telemundo have taken decidedly different approaches thus far.

While Telemundo resisted the temptation to go to full-screen ads, Fox Sports chose to pull the commercial lever. While the dedicated commercial time could result in hundreds of millions of dollars, it was a disappointment to soccer fans used to a game of halves, not the interruption of opportunistic commercial breaks. It was doubly disappointing because Fox was reported to initially be employing a hybrid model where they would approach each game and

where they would approach each game and opportunity uniquely in deciding to keep coverage on the field or depart for advertising dollars.

Fans had gotten accustomed to full-screen ads throughout the first week of the tournament and it looked like that was the direction we were heading for every contest. But then Fox surprised us all by going to a split-screen ad in the second half of Mexico's 1-0 victory over South Korea late night on Thursday. The commercials got a larger screen and sound while a smaller picture showed replays, fan reactions, and footage from inside the stadium.

END OF JONVIC?

Marcos says no. But the President has now said, out loud, that he wants Benhur Abalos back in government.

Abalos left DILG, ran for the Senate, lost, and is suddenly being talked about again while his old office is occupied by a secretary already dogged by questions.

That is not a Cabinet revamp, Malacanang says. Very comforting. Also Jonvic should check if his keys still work on Monday.

'**NAKAKAAWA**, **WASTE OF AIRTIME**'

Gilayon nga nagsabat sanday Senators Ping Lacson kag Tito Sotto sa akusasyon ni Senate Minority Leader Alan Peter Cayetano nga nagtawag sa ila nga "tuta" sang Malacañang.

"*Sabi ni Raffy Tulfo, hindi daw sila Malacañang. In other words, hindi sila tuta. But doon mo makikita yung graduated and experienced. Bakit? Kasi si Sen. Tito Sotto and Sen. Raffy Tulfo, at least sila tuta ng Malacañang. Pero si Erwin Tulfo, tuta lang ni Lacson*," suno sa iya sa isa ka Facebook live.

Ginpahayag man niya nga "tuta" ni Senator Ping Lacson si Senator Erwin Tulfo.

"*Hindi na po tuta si Sen. Lacson. Aso na po siya. Aso na po siya. Matagal na po siya. Meron ding pong 'asokaso.' Ano 'yong asokaso? Kapag tumahol 'yong aso, kakasuhan*," dugang pa niya.

Sa isa ka statement, ginpahayag ni Lacson nga naluoy na sia kay Cayetano.

"*Kawawa naman. Kung ano-ano na sinasabi. Parang malapit nang bumigay. Sana hindi tuluyang mag-meltdown*," suno kay Lacson.

"*Magkaibigan naman kami, matagal na, nung opposition congressman pa siya... Since then, Kuya Ping na tawag niya sa akin... Well, the rest is history*," pahayag pa niya.

Jun 20, 2026 19:36:30

Ginsiling naman ni Sotto nga uyang lang sang "airtime" ang mga pahayag ni Cayetano.

"*It's about time na huwag n'yo nang patulan ang mala-telenovelang mga ingay na wala namang mararating. Waste of airtime. Let's move on for the good of the country*," suno kay Sotto.

JUNE

Have a blessed
FATHER'S DAY!
On this Father's Day, may we also remember the ultimate patriarch, St. Joseph, the foster father of Jesus. As the earthly father of our Lord and Savior, he demonstrated selfless devotion, unwavering support, and unshakeable faith. May his example inspire us to be better fathers and caregivers, and may we continue to celebrate his legacy as we mark this special day.

Mayor Leni Robredo just shared a major update from the ground, and she is rolling with some heavy hitters from the national government, specifically DPWH Sec Vince Dizon and NEA Admin Nani Almeda.

They are locking down some pretty big infrastructure projects for Naga, like finally finishing the Naga Airport, rushing the Almeda-Mabolo Bypass Road, tackling flood control, and even turning the city into a national pilot site for a futuristic underground cabling project.

On the surface, it looks like a typical, hyper-productive mayor doing mayor things, but it actually gives us a glimpse in how we can move past toxic partisan politics and make government work for everyone.

First off, let's address the elephant in the room. Remember the 2022 presidential election? It was easily one of the most intense, deeply polarized campaigns we've ever seen, with Mayor Leni Robredo and the current administration running as ultimate political rivals. If we stayed stuck in the usual political playbook, these two sides wouldn't even be in the same room.

But fast forward to now, and you have top-tier national agency chiefs working hand-in-hand with the former opposition leader. This is exactly what moving on looks like. It proves that progress happens the second leaders decide that election day has an expiration date, bypassing old campaign friction to focus on actual public service.

2026-06-20 23:40:47

Seeing that kind of LGU and national government cooperation is a huge win, proving that mature governance isn't about liking your political rivals, but about respecting the taxpayers enough to work with them anyway.

The other thing to keep in mind is the ticking clock because just like any of the thousand or so mayors in the country, Mayor Leni will only be mayor until 2028. Since local term limits give her a strictly capped window to get things done, there's no time to waste on petty political standoffs.

The timeline she's working with is incredibly tight, especially with targets like getting that bypass road done by early 2027. Because 2028 is her hard ceiling, there is a real sense of urgency that forces everyone to cut through the red tape. Instead of letting partisan grudges freeze progress for years, she is maximizing this window to turn Naga into a blueprint for rapid, high-impact urban renewal, locking in as much national government alignment as possible

Instead of letting partisan grudges freeze progress for years, she is maximizing this window to turn Naga into a blueprint for rapid, high-impact urban renewal, locking in as much national government alignment as possible before her term wraps up. It shows that when delivery becomes the only metric that matters, political drama just naturally gets pushed to the side.

It is a super fascinating glimpse into how local and national dynamics can change when actual development takes priority over political lines.

If there's a bigger story here, it's not just about Naga. It's about proving that the fastest way to build a better Philippines is for leaders to stop asking who won the last election and start asking what needs to get done next.
